DETAILED ACTION

1. The Examiner would like to note that the present application has been reassigned to a new Examiner.

Response to Arguments

2. Applicant's arguments, see pp. 13-14, filed 12/18/07, with respect to the rejection of all pending claims under 35 U.S.C. §103(a) have been fully considered and are persuasive. That rejection has been withdrawn. However, in view of Applicant's amendments, a double patenting rejection has been set forth below.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422

F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 51-63, 65-79, 81-87, 89-103 and 105-108 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 22 of U.S. Patent No. 5,758,079 in view of:

Swinehart ("Telephone Management in the Etherphone System"), Vin et al. ("Multimedia Conferencing in the Etherphone Environment"), Ahuja et al. (US 5,689,553), Harrison et al. (US 5,796,727), Banks ("America Online: A Graphics Based Success Evaluation") and Baumgartner et al. (US 5,195,086).

As noted by Applicant, each of independent claims 51, 67, 82 and 98 have been amended to incorporate the entire body of issued independent claim 22 of U.S. Patent No. 5,758,079 (Remarks, 11). The remaining limitations of independent claims 51, 67,

82 and 98 and all dependent claims are taught by the combination of Swinehart, Vin, Ahuja, Harrison, Banks and Baumgartner (See Office Action of 6/18/2007, pp. 7-16).

Use of the method for detection and notification of incoming callers, claimed in claim 22 of U.S. Patent No. 5,758,079, in a conferencing system such as the one taught by Swinehart, Vin, Ahuja, Harrison, Banks and Baumgartner would have been advantageous, since it would have allowed potential conferees to be notified when they were invited to a conference and be notified of the identity of the inviter, so the invitee could be sure they wanted to join the conference.

Therefore, it would have been obvious to one of ordinary skill in the art to use the detection and notification claimed in claim 22 of U.S. Patent No. 5,758,079, in the specific conferencing system taught by Swinehart, Vin, Ahuja, Harrison, Banks and Baumgartner.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2153

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
